

# Flight reservation system

## **project purpose :**

flight reservation systems (Pakistan) is system that allow an airline to sell their inventory (seats). It contains information on schedules about the flights. we can confirm the ticket as well as view the ticket and cancel the ticket at the end we can also provide our feedback.

## Program Details:

- >Customer Details.
- >Book Flight.
- >View Ticket.
- >Cancel Ticket.
- >Provide Feedback.

**Thanks**
